

Dear Friends of Gospel Net Ministries,

It's been quite a while since I've sent out an e-mail to you.

Sometimes when I'm pressured for International money I let you know what's going on.

In this case, Widow Norah's son got sick, and has been in the hospital for five days with Cholera. He's near death. I guess the power was out and they didn't notify me until today. I've sent \$100 along with an email asking the doctor to please treat him. That's the way they do in Kenya--no treatment without payment up front.

Anyway, I'm looking for some help with coming up with \$400 more for his treatment. It will be cheaper than raising funds for his funeral. I'm hoping it's not too late.

I don't know how you are doing personally. Perhaps you could give me some news. I'd be happy to pray for your needs.

If you felt you could help, this would be a really good time. I'm behind on paying off three other medical needs. Just about done with two of them, and owe \$1,800 on a surgery for Pastor Musamali's wife, who had a total hysterectomy. So this little boy got sick at an inopportune time for me.

I'd love to find four donors who could give \$100 each. If you are unable to help with this one, you can help by praying I'll find other donors, okay? I appreciate your patience with me.

In Christ's affection,

Wes
